

Coalition to Protect Kids NY

The most radical ballot initiative in New York State history will go before voters on November 5th. Most New Yorkers have no idea what the so-called “**Equal Rights Amendment**” has in store for them. Formally known as **Proposal One**, this initiative would:

- Destroy girls' sports, giving biological males a constitutional right to compete on girls teams, taking away scholarships and playing time these young women have worked so hard for. 66% of New Yorkers oppose this;
- Take away parents' rights: Parents could be banned from knowing if a child is gender transitioning in school;
- Lead to illegal immigrant voting by including “national origin” as a protected right, and
- Threaten sensible age restrictions by banning “discrimination” based on someone's age. Senior housing could be threatened; kids could sue for the right to smoke or drink or vote; discounts for seniors could be challenged.

New Yorkers need to understand what Prop One would actually do, but those pushing the ballot initiative have done nothing but obfuscate.

If **Prop One** passes, New York would be forever changed. Constitutional Amendments are extremely rare in this state, and the damage done by Prop One would effectively be permanent.

We encourage all to come and invite another to learn what this Prop One is all about. Thank you.
